Soaring high to highest is our ultimate nature

Dr. Dhan Singh Rawat

Cabinet Minister of Higher & Medical Education (UK)

Cabinet Minister Message

It is a matter of honor and immense pleasure to communicate with the budding professionals through this platform.

Higher education scenario globally has witnessed a significant change in approach and a remarkable growth. Higher education in India too, has readily adapted to the global demands and every institution has geared up to meet the global challenges by harnessing the latest technologies in education front. The move towards inter-disciplinary studies, research based and interactive learning with technology integration have opened up several options as well as created multiple challenges. Uttarakhand, like many other states is at a juncture where a huge population of young men and women are opting for higher education. In the wake of privatization of education on increase in India, the major focus is on creating an optimized and vibrant platform for quality in knowledge enhancement and bridging the gap between academia and industry with an objective to build up core competence in students integrating knowledge with skills on the foundation of ethics and values.

A strong believer and practitioner of the dictum “Knowledge is Power”, Ministry of Higher Education in Uttarakhand has been on the path of delivering quality education by developing the young human resources with ethical and moral values, while boosting their leadership qualities, research culture and innovative skills. The main objective of the Uttarakhand Government is to provide higher education of global standards and hence our afford is to design all the programs to meet international standards. Highly experienced and qualified faculty members, continuously engaged in the maintenance and enhancement of student-centric learning environment through innovative pedagogy, form the backbone of education.

Research, consultancy and innovation are the pillars of success. I request all the fresh and Young minds to utilize the available resources to the maximum in research, creativity and evidence based practice.

I strongly believe that we are marching ahead in the right direction, providing a holistic education to the future generation and playing a positive role in nation building. We reiterate our endeavor to provide premium quality education accessible to all and an environment for the growth of over-all personality development leading to generating “Global Professionals”.

I would like to conclude by quoting Guru Rabindranath Tagore that “The higher education is that which does not merely give us information but makes our life in harmony with our existence.”

Wish you all a great success in your future.

Dr. Hem Chandra Pandey
Vice Chancellor of HNBUME University

Vice Chancellor Message

Education, which has always played an important role in the life of man, has gained a lot of importance in the present time because it determines your success today. The current developments have brought forth a variety of new avenues, fields, areas and opportunities which is an ideal situation for those who want to work hard for self-satisfaction and high earning.

I firmly believe in the complete development of the student and I am sure the Staff at CIMS&R are trained to ensure that the students are given every possible support in all their endeavours and academic.

The comfort and health of the student community, both mental and physical, are utmost importance. I urge the faculty to lend a gentle guiding hand so that our students recognise their inner potential and grow.

Sports and other co-curricular activities should be encouraged and the students should be given every form of support to develop their talents in all fields.

My dear students, don't narrow your horizons, believe in exposure, widen your knowledge base and study beyond the confines of the syllabus.

In this age of technology, knowledge is just a click away and we ensure that every student of the college has only the best of technology at his/her disposal. Technology is changing and changing for betterment only, making lives simpler and easy to live, processing faster, aiding in decision making, converting luxuries to affordability and making the impossible seems possible. Make an attempt to serve the ends of technological and management excellence which is the desire of mankind from centuries.

I extend a warm welcome to all prospective students and wish you all a great career ahead.

Dr. Hem Chandra Pandey
Vice Chancellor
H.N.B. Uttarakhand Medical Education University
Dehradun

Dr. P. P. Dhyani
Vice Chancellor of SDSU University

Vice Chancellor Message

It is a matter of immense pleasure and honour for me to address you all through the brochure of Combined (P.G) institute of medical Sciences and Research. It is indeed very heartening to witness that the college has carved a name for itself in the academic scenario of the region. Education is the most powerful tool to bring desirable changes in our personality and also to bring positive changes in our society. It is the only medium which enables you to move from darkness to brightness.

Dear Students, I strongly believe that, there can be no better way to drive and improve our nation's prosperity and social economic well-being than through its education system. I also believe that, professionals are the key to continued economic and technological advancement of our country.

I would take this opportunity to urge you all to focus on all round development. You should always have your education laced with morality and ethics. This task has to be taken over by the academicians to provide value and ethic based education. You should all remember that, "honesty is the first chapter in the book of wisdom" and we should inculcate honesty and integrity in all what we do.

I earnestly hope and trust that, my esteemed academicians and budding professionals will work with sincerity, honesty and dedication and thereby contribute to make this world a better place to live in.

Last but not the least, I would like to appreciate the initiative by Combined (PG) Institute of Medical Sciences and Research, Dehradun to provide free education to the 100 children orphaned by Corona pandemic. I would like to Congratulate the Chairman, Mr. Lalit Mohan Joshi for this philanthropy. His kind efforts will help many to stand on their feet.

Wish you all a great Success

Lalit Mohan Joshi
Chairman

Chairman Message

**"We cannot always build the future for our youth,
but we can build our youth for the future."**

Franklin D. Roosevelt

These words by Franklin D. Roosevelt perfectly describe our aim at Combined (P.G) Institute of medical Sciences and Research. Beyond providing a sound education, we wish to provide our students a holistic learning experience for life. Our aim is to teach students to LEARN, not just STUDY. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be molded.

Dear students, "You are the nation-builders. You are the movers of technology. You are the agents of change." It is our fervent hope that the years that you spend in CIMS&R would enable you to equip with leadership and technical skills. The knowledge that you will gain, the fine qualities that you will imbibe and the technical skills that you will learn to apply will be your major contribution to your parents, to society, and to the nation.

We invest our trust on you. You are our safe source and we bank all our efforts on you. We create not the future instead we craft you for the future. There are strong challenges to great efforts but, always remember, great effort bears the sweet fruit of success. We want you to taste the fruit of success once and for the rest of your life, you will never rest.

Always remember that the sound mind exists in a sound body. Our efforts will be your all round development and we expect you to be away from the malpractices such as drug abuses which is eating our youth like a termite. So join hands for the slogan "yes to life, No to Drugs"

Best wishes.

Sanjay Joshi
Managing Director

Managing Director Message

MESSAGE

As we step into this new academic year, filled with hope and dreams of scaling new heights, I wish to reiterate the importance of few things that we have to keep in mind. Parents should remember that children should not be forced, but should be guided to achieve whatever goals they may have in their minds in an easy and pleasing manner, so that we may be able to discover the particular touch of genius in each one of them. The purpose of education is to teach our children to think and develop a capacity to reason out facts. Students should keep in mind the importance of planning and prioritizing their time and the effective use of it which are essential to achieve success.

Students should always think and review – discover the cause and effect of every event, in which they are involved. Do not surrender or become a slave to youthful fancies and indulgences. Be steady in your studies. Learn to enjoy hard work – particularly your studies. Think wisely, think systematically. Always prepare yourself for next day's lesson. Be very serious and attentive in class.

Preserve our heritage and environment for yourself as well as for your next generation. Always be a soldier to defend and preserve our traditions and our territory. With experienced and dedicated teachers and excellent infrastructure, our college helps students to realize their goals in life. I encourage all students to take advantage of the opportunities provided by the college and involve themselves in all the extra curricular activities that are offered. The overall development of the mind and body is a sign of a healthy and complete development.

Hard work, dedication and perseverance are the most important traits in a person that lead to success. The future belongs to you; your need, therefore, is to prepare yourself for an active participation in the world. This participation demands that you become well informed and hence develop yourself like a pioneer and ultimately grow as responsible men and women.

Wishing You all a Good Luck

WELCOME TO CIMS I

Combined (P.G.) Institute of Medical Sciences & Research

CIMS&R is established since 2002 under the aegis of J J Educational Institute which is a society that was formed with the chief objective to impart Nursing and paramedical Education to the students of the than newly formed Hilly state of Uttarakhand and its neighbouring states. CIMS&R is the pioneer in Uttarakhand to start Nursing Education and allied fields. Over a short span of time, CIMS&R has witnessed its tremendous growth as a result of which it is imparting professional education in about more than 30 streams. Combined (PG) institute of medical Sciences and Research is committed to the ethos of J. J Educational Institute which focuses to impart excellence in education and research. Our holistic model of education has enabled us to be at the forefront of education. The Institute strives to provide the tools of unremitting edification which helps to imbibe skills of creativity, nurture attitude of problem solving and leadership in its students. We instill critical thinking, intellectual growth and a passion of attaining excellence amongst the students. At CIMS&R, the students are channelized and motivated to practically implement the principles learnt in classroom through experimentation in the laboratories, so that they inculcate skills and confidence to become a leader in the opted field.

“We welcome you to this Green Campus”

**The purpose of education is to replace
An empty mind with an open one.**

Malcam S. Forbes

Vision

To be a premier academic institution, recognized internationally for its contribution to in the field of education through excellence in teaching, learning, research, internationalization, entrepreneurship and leadership.

Mission

- To transform education through academic rigour, practical orientation and outcome based teaching.
- To develop and implement a relationship of cooperation between industry and academia.
- To undertake impactful research addressing local, national and global challenges.
- To prepare graduates to be lifelong learners with strong analytical and leadership skills.
- To develop global professionals and entrepreneurs with innovative spirit, tolerance and desire to make a difference to the society.

Core Values

Pursuit of excellence through innovation, collaboration and continuous improvement
Freedom of thought and expression
Integrity and professional ethics
Respect for diversity
Accountability for actions and results

What make us different from others?

IDEALLY LOCATED LUSH GREEN CAMPUS: The CIMS&R campus is centrally located and is very near to Airport, Railway Station and Bus stand. Local transport facility is readily available around the campus. The ideal location surrounded by the lush green trees and Hills adds to the aesthetic sense.

INSPIRING FACULTY: The core faculty team comprises distinguished academicians from the best institutions and leading professionals of the corporate world. Combined (P.G) Institute has over 100 faculty members and many of them are Ph.D holders and are involved in guiding the students and researchers in their areas of expertise.

SCHOLARSHIPS: CIMS&R has always been driven by the vision of its Chairman, Mr. Lalit Mohan Joshi, to develop the next generation of leadership for organisations, communities and society at large. As a part of his vision, the victims of Covid Scholarships were instituted to help those who are brilliant in academics and those who deserve world-class education but don't have the means. At CIMS&R, financial limitations do not restrict academic pursuits and career dreams of deserving students. In view of that, the Institution has also tied up with premier banks to offer easy Education Loans to students.

HOLISTIC DEVELOPMENT: Sports Training, Music, Camping, Yoga etc is an integral part of the Personality Enhancement Module at CIMS&R. You will get an opportunity to participate in many activities which will test and enhance your mental and physical agility, besides teamwork and leadership skills.

WORLD-CLASS INFRASTRUCTURE: At CIMS&R, carefully conceived and well designed features provide you with the right launching pad to embark on a highly rewarding career. All in all, it provides you with an environment-friendly campus which is home to several architecturally striking buildings. This is also the optimal setting where every need of yours is filled.

DIVERSE SPORTS FACILITIES: CIMS&R has a wide sports ground and extensive sports facilities. CIMS&R offers ample opportunities to students for a regular work-out and lifestyle management by providing a host of excellent sports facilities. It has facilities for games like cricket, football, basketball and volleyball as well as indoor games like chess, carom, table-tennis etc.

MESS AND CAFETERIA: A spacious well lit and well ventilated cafeteria in the College serves sumptuous and healthy food to the students. A healthy and tasty start to the day begins with breakfast at 8 am followed by lunch, evening snacks and dinner. The cafeteria serves a variety of dishes which are both healthy and tasty and are crafted by a team of professional dieticians to ensure a well balanced diet.

MEDICAL FACILITIES: To ensure students well being, College provides great medical facilities with a full time team of doctors available 24 x 7 in the the parent Multispeciality Hospital. Stretchers, wheel chairs and other equipment are constant standby for any eventuality. Transportation facility is also available in in case of any emergency.

WORLD-CLASS FACILITIES SECURE CAMPUS: CIMS&R campus has strict security through 24-hour guards and CCTV installation ensuring a pleasant stay and allowing students to focus on academics.

RESIDENTIAL ACCOMMODATION AND DEPARTMENTAL STORE: CIMS&R offers comprehensive hostel facilities for all students within the campus. Caring wardens and tight security ensures a pleasant stay for students allowing them to focus on academics. All rooms are equipped to aid students with their class work. Transport facility is provided to all.

WORLD-CLASS FACILITIES TECHNO-SAVVY CAMPUS: CIMS&R has always been in the forefront in utilizing IT infrastructure to make learning informative and entertaining. The entire campus, including the library and the hostels, is connected through Local Area Network. There is a 24-hour wireless internet connectivity with data transfer speed of 200 Mbps and online UPSs are installed for uninterrupted power supply in each lab .

Programmes

Post Graduate Programmes

M.H.A.

Duration: 2 years

Eligibility: A Bachelor's degree in any stream be it Science, Arts, or Commerce

M.P.H.

Duration: 2 years

Eligibility: Graduate degree from any recognized Indian university or equivalent degree from any foreign university.

M.P.T.*

Duration: 2 years

Eligibility: BPT degree with minimum 50% mark aggregate from recognized university

- a) Ortho
- b) Neuro
- c) Sports

M.Sc. M.L.T.*

Duration: 2 years

Eligibility: Must have a B.Sc. Degree in MLT or BMLT or equivalent course. The minimum percentage required for admission is 55%.

M.Sc. Biochemistry

Duration: 2 years

Eligibility: B. Sc. with Chemistry, Botany and Zoology or any other equivalent degree like Biotechnology/ Microbiology/ Biochemistry/ Genetics/ Industrial Microbiology/ MLT with minimum 55% marks in aggregate

M.Sc. Microbiology

Duration: 2 years

Eligibility: Eligibility for Masters or Postgraduate course in Microbiology is a B.Sc. degree in any stream of science such as Botany, Zoology, Chemistry, Physiology, Microbiology with at least 55% of marks (50% for SC/ST candidates) from a recognized University.

M.A. Yoga*

Duration: 2 years

Eligibility: Graduation

Under Graduate Programmes

B.Sc. Optometry*

Duration: 3 Year +1 Year internship

Eligibility: 10+2 Pass with 50% marks in Physics, Chemistry, Biology/Maths and English as Compulsory Subjects.

B.Sc. O.T.*

Duration: 3 years

Eligibility: 50% in PCBE in 10+2

B.M.M.

Duration: 3½ years

Eligibility: 10+2 pass with 45% in Physics, Chemistry, Biology and English as compulsory subjects

B.Sc. M.L.T.

Duration: 3½ years

For Nepali students, course duration is 4 years i.e. (3 year course + 1 year internship)

Eligibility: The candidate must have passed the 10+2 with Minimum 45% Marks in PCB/PCM/DMLT.

B.M.R.I.T.

Duration: 3½ years

For Nepali students, course duration is 4 years i.e. (3 year course + 1 year internship)

Eligibility: The candidate must have passed the 10+2 with Minimum 45% Marks in PCB/PCM/DMRIT.

B.P.T.

Duration: 4½ years

Eligibility: 10+2 passed with Physics, Chemistry and Biology/Maths with minimum 50% aggregate from recognized board

B.H.A.

Duration: 4 years

Eligibility: The eligibility criteria for BHA is 45% minimum aggregate in 10+2 from a recognized college or board (ICSE/CBSE/State Boards).

* Subject to approval from competent authority.

Under Graduate Programmes

B.Sc. Computer Science*

Duration: 3 years

Eligibility: The basic BSc Computer Science eligibility is a minimum aggregate of 50% in Class 12 with PCM as compulsory subjects.

B.Sc. I.T.*

Duration: 3 years

Eligibility: 10+2 or equivalent examinations from a recognized board with Maths

B.Sc. Agriculture*

Duration: 4 years

Eligibility: Sr. Secondary (10+2) with minimum 50% marks in PCM/PCB.

Diploma in Dialysis*

Duration: 2 years

Eligibility: 10+2 pass with a minimum aggregate score of 40% with compulsory subjects such as Physics and Chemistry and one optional subject from either Mathematics or Biology.

B.Lib.*

Duration: 1 years

Eligibility: Any bachelor's degree holder from any recognised University with a minimum overall aggregate of 50% or more in the bachelor's degree exam

Post & Under Graduate Nursing Programmes

M.Sc. Nursing

Duration: 2 years

Eligibility: B.Sc. Nursing & Honors

- a) Medical and Surgical Nursing
- b) Gynaecology and Obstetrics Nursing
- c) Paediatric Nursing

B.Sc. Nursing

Duration: 4 years

Eligibility: 10+2 with min. 45% marks in PCB&E.

GNM

Duration: 3 years

Eligibility: 10+2 with min. 40% marks in any stream & ANM Pass.

ANM

Duration: 2 years

Eligibility: 10+2 Pass any stream

* Subject to approval from competent authority.

Choose Your Course

PROGRAM NAME

MHA
(Master's in Hospital Administration)

Duration : 2 Year

Eligibility :

A Bachelor's degree in any stream be it Science, Arts, or Commerce

Age : No Bar

About the Course

Masters of Public Health (MPH) is a two-year medical-field oriented program which offers structural knowledge about public health and provides candidates with the right skill sets and exposure to real-world problems in public health. This post Graduate Course is aimed to graduate professionals with the technical and managerial skills to strengthen the Public Health system .It trains and develop a cadre of competent public health policy makers, managers , practitioners, educators and researchers.

Program Highlights

1. Masters of Public Health is a suitable career choice for candidates who aspire to work in federal, state and international health organizations and research institutions
- 2.MPH graduates have opportunities in the health system and academic institutions.
3. Non-academic jobs are in Govt & private sector
4. The MPH graduate can Work on the position of:
 - a. Health Educator
 - b. Public Health Officer
 - c. Epidemiologist
 - d. Biostatistician
 - e. Director of Operations for Public Health Offices
 - f. Nutritionist

PROGRAM NAME

MPH
(Master's in Public Health)

Duration : 2 Year

Eligibility :

Graduate degree from any recognized Indian university or equivalent degree from any foreign university.

Age : No Bar

About the Course

Master of Hospital Administration, also known as the Master of Hospital Administration (MHA) is a popular PG (Post Graduate) Healthcare and Hospital Management course. The Master of Hospital Management course acts as a direct link between healthcare facilities, health insurance, and those supplying the services they need. Hospital administrators are responsible for the administration, leadership, and management of hospitals and hospital networks. Hospital Management courses are also open to non-medical background graduates. Healthcare administrations are regarded as healthcare professionals. The two-year duration Master of Health/ Hospital Administration course is career orienting in nature, which opens wide career opportunities in different fields of hospital management.

Program Highlights

1. Trains the student to work as a Leader
2. Enhances Building Networks:
3. Competitive Salary:
4. Open the Door for opportunities in Health Sector as:
 - a. Agency Manager
 - b. Direct Marketing Manager
 - c. Hospital Administration Manager
 - d. Hospital Business Manager
 - e. Key Accounts Manager
 - f. Management Trainee
 - g. Occupational Health Specialist
 - h. Program Manager

PROGRAM NAME

MPT
(Master's in Physiotherapy)

Duration : 2 Year

Eligibility :

BPT degree with minimum 55% mark aggregate from recognized university

Age : No Bar

About the Course

MPT is a post-graduate academic degree awarded to students in the field of physical therapy. MPT course will allow an individual to work on certain healthcare aspects such as improving muscle strength, bone strength, recovering from accidents, operations, etc. Master in physiotherapy course provides both practical and theoretical learning experience which enables knowledge, gain skill and the required behavior in various fields.

OFFERED STREAMS:

MPT in Neurology
MPT in musculoskeletal and disorder
MPT in sports rehabilitation

Program Highlights

- Emphasis on advanced clinical skills
- Evidence-informed practice
- Hands-on training in state of the art research facility
- Flexible study schedule for working professionals
- Curricular Concentration on Research projects and publication
- 360-degree clinical assessment and feedback.

Scope

- Academic and Teaching jobs
- Clinical jobs in hospitals and specialized centers.
- Wellness and fitness consultant jobs
- Rehabilitation consultant for sports teams
- Researcher
- Consultant jobs
- Lecturer
- Eligibility to pursue PhD

PROGRAM NAME

M. Sc. Biochemistry
(Master of Science in Biochemistry)

Duration : 2 Year

Eligibility :

B. Sc. with Chemistry, Botany and Zoology or any other equivalent degree like Biotechnology/ Microbiology/ Biochemistry/ Genetics/ Industrial Microbiology/ MLT with minimum 55% marks in aggregate

About the Course

M.Sc. in Biochemistry is a 2-year postgraduate program that allows you to understand the chemical processes related to living organisms. The program aims to provide a sound understanding of every aspect of the structure and function of living things at the molecular level and to utilize the knowledge for the benefit of mankind. A masters degree in Biochemistry is intended for undergraduate degree students who are looking to advance a career, strengthen a biochemical background or prepare for a doctorate program.

Program Highlights

Biochemists find themselves placed at high profile jobs in many fields:

1. Medical organizations
2. Agriculture universities
3. R&D openings in Pharmaceutical Organizations
4. Diagnostic companies
5. Quality control
6. In various food industries.
7. Research opportunities

The Profile of a M.Sc. Biochemistry postgraduate includes:

- Research Fellow
- Biotechnologist
- Analytical chemist
- Biomedical scientist
- Pharma Associate
- QA/AC Associate
- Healthcare scientist
- Research Scientist
- Clinical Scientist
- Research Associates
- Chemist
- Pharmacologist
- Laboratory Technician
- Food Safety Analyst.

PROGRAM NAME

M. Sc. Microbiology
(Master of Science in Microbiology)

Duration : 2 Year

Eligibility :

Eligibility for Masters or Postgraduate course in Microbiology is a B.Sc. degree in any stream of science such as Botany, Zoology, Chemistry, Physiology, Microbiology with at least 55% of marks (50% for SC/ST candidates) from a recognized University.

About the Course

Master of Science in Microbiology is a 2 year postgraduate course . It combines the disciplines of chemistry and biology to study living microorganisms and their relations in the environment.The course aims to produce competent microbiologists who can excel in skills and knowledge in theory and practice.The course includes teaching and training in variety of subjects related to this field. he convertible expertise one develops also equips the candidate well for a wide range of careers outside the lab. There are several job opportunities also for those who want to pursue a career in microbiology.

Program Highlights

Microbiologists are in high demand in various fields

Promising Salary Packages

Wide scope in the field of:

- Medical research
- Quality control
- Biotechnology Industry
- Teaching in universities
- Pharmaceutical and bioscience companies
- Government and private hospitals
- Food industries
- Research and development organizations
- Chemical industries
- Pharmaceutical industries

PROGRAM NAME

M.Sc. M.L.T.
(Master's in Science Medical
Lab Technology)

Duration : 2 Year

Eligibility :

Must have a B.Sc. Degree in MLT or BMLT or equivalent course. The minimum percentage required for admission in 55%.

About the Course

M.Sc. Medical Lab Technology is a paramedical course which deals with introduction to patient care with proper diagnosis using clinical laboratory equipment to run the tests . It is a 2 year postgraduate program that includes fascinating subjects like molecular biology, human anatomy & physiology, biochemistry, haematology etc.During the course the students are taught about various diseases, their diagnosis, treatment and ways to prevent them. The students are trained to render emphasis on how to carry the clinical tests accurately that will help the physician to make proper diagnosis.It prepares experienced and technically sounds professionals who are eligible to work in private hospitals & biomedical Laboratory centers.

Program Highlights

1. The programme aims to provide technical training in laboratory medicine.
2. The students receive an exposure along with hands on training in the various areas of laboratory medicine

Prepares trained technologists for medical investigations

3. Wide range of Opportunities in :

Hospitals/Clinics (Government/Private)

- Nursing Homes
- Pathological labs
- Military hospitals(army/navy/air-force)
- Pharmaceutical companies
- Commercial clinical Laboratories
- Forensic/ crime laboratories
- Educational Institute

4.Job Profiles Include:Laboratory Manager, Consultant, Healthcare Administrator,Education Consultant, Supervisors of Clinical laboratories, Health and Safety Officer etc.

PROGRAM NAME

B.Sc. Optometry

(Bachelor of Science in Optometry)

Duration : 3 Year +
1 Year internship

Eligibility :

10+2 Pass with 50% marks in Physics, Chemistry, Biology/ Maths and English as Compulsory Subjects.

About the Course

B. Sc. Optometry is an Undergraduate Program which deals with the examination, diagnosis, treatment and management of diseases and disorders of the visual system. It is a vision care science. One can also define it as the science of eye equipment (including lenses and spectacles) which is imbued with the idea of improving the vision of the human eye and remove all kinds of obstacles of sight which an individual may experience. The program is envisaged to develop a multipurpose ophthalmic manpower at paramedical level. The training will enable a student to become a competent person in providing service as an Optician, Optometrist, Refractionist and Ophthalmic Assistant to the community in urban, semi-urban and rural settings in private, semi-Governmental and Governmental sectors.

Program Highlights

1. Dynamic and challenging career
2. Allows one to help people
3. Achieve personal growth, community respect, job flexibility and financial success and offers virtually unlimited opportunities.
4. Top recruiting areas are Lens manufacturing units, optician showrooms, multinational companies dealing with eye care products, Contact lens and ophthalmic lens industry, multinational companies dealing with eye care products.

Scope:

- Assist ophthalmologists in hospital clinic
- Practice in optical establishments
- Run optical shop
- Have excellent job opportunities overseas.
- Offer clinical services to multinationals dealing, with the manufacturing and distribution of ophthalmic lenses, contact lenses and ophthalmic instruments.
- Start manufacturing unit for optical lenses.

For those interested in higher studies can join for M.Sc and PhD programs and take up teaching Optometry as a carrier.

PROGRAM NAME

B.Sc. O.T.

(B.Sc. in Operation Theater Technology)

Duration : 3 Year

Eligibility :

50% in PCBE in 10+2

Age : No Bar

About the Course

The B.Sc. in Operation Theatre Technology is related to all the work and management of the operation theatre. The course prepares students for managing the patients as well as for monitoring the ins and outs of an operation theatre. During the study, the students are responsible for looking after all the surgical instruments as well as their sterilization. Students assist the surgeon during operations and closely look after the drugs, anesthetic gases, drapes and sterilization requirements during surgery. In addition, minor tasks of arranging operation theatre table, instrument table, anesthesia table and managing the staff prepares a professional Operation Theatre Technician.

Program Highlights

1. There is a need for OT Technicians in almost every field of medicine, like General Surgery, Neurosurgery, Plastic Surgery, Urology, Gynaecology, and much more.
2. Candidates will be able to pursue postgraduate after this course
3. Job profiles that are available for OTT graduates:
 - Lab Technician
 - OT Technician
 - Teacher & Lecture
 - Anaesthesiology Consultant
 - Associate Consultant

PROGRAM NAME

B.Sc.M.L.T.

(Bachelor of Science in Medical Laboratory Technology)

Duration : 3½ Year

For Nepali students,
course duration is 4 years i.e.
(3 year course + 1 year internship)

Eligibility :

The candidate must have passed the 10+2 with Physics, Chemistry, Biology/Maths/Biotechnology/Health Sciences and English from a recognized board.

Minimum of 45% marks in aggregate (45% for SC/ST/OBC candidates) in Physics, Chemistry, Biology /Maths/ Biotechnology/Health Care Sciences.

About the Course

B.Sc. Medical Laboratory Technology (MLT) is an Undergraduate Program offered by Combined PG Institute of Medical Sciences and Research. B.Sc MLT Course is a 3 years degree program in which students will learn skills of diagnosing and helping doctors in finalizing the entire problem. It allows medical aspirants to be a part of this stream without a degree of MBBS. The students perform various diagnostic analysis on body fluids, which include hematology, bacteriology, immunologic, chemical and microscopic during the course. The subjects taught in the program are Clinical Endocrinology & Toxicology Lab, Diagnostic Molecular Biology Lab, Diagnostic Cytology etc.

Program Highlights

The programme aims to provide technical training in laboratory medicine. The students receive an exposure along with hands on training in the various areas of laboratory medicine such as Phlebotomy, Clinical Biochemistry, Hematology, Cytopathology, Microbiology, Immunology, Parasitology, Serology, & Blood Banking. The trained technologists are involved in collecting information, sampling, testing, reporting & documenting medical investigations in following Job Areas:

- Hospitals/clinics (government/private)
- Nursing Homes
- Commercial clinical Laboratories
- Pathological labs
- Forensic/ crime laboratories
- Military hospitals(army/navy/air-force)
- Pharmaceutical companies
- Educational Institute

PROGRAM NAME

B.M.M.

(Bachelor of science in Medical Microbiology)

Duration : 3½ Year

Eligibility :

10+2 pass with 45% in Physics, Chemistry, Biology and English as compulsory subjects

About the Course

B.Sc. Microbiology is a 3-year undergraduate program that aims to provide students a detailed study of microorganisms and their effect on the human body. BSc Microbiology also consists of the study of different types of viruses and bacteria and how they function on a human cell. This program is designed to develop a broad understanding of fundamental and applied scientific concepts and methods in microbiology.

Program Highlights

Microbiologists can find job opportunities in sectors such as government and private hospitals, food industries, research and development organizations, chemical industries and pharmaceutical industries

- Biomedical scientists
- Mycologists, Virologists
- Protozoologist, Parasitologist
- Biochemist, Immunologists
- Biotechnologist
- Analysts, Science Writer
- Microbiologists, Teachers
- Cell Biologists
- Geneticists

PROGRAM NAME

B.P.T.

(Bachelor of Physiotherapy)

Duration : 4½ Year

Eligibility :

10+2 passed with Physics, Chemistry and Biology/Maths with minimum 50% aggregate from recognized board

Age : 17 Year Minimum

About the Course

BPT is an undergraduate degree programme designed to introduce students to the fundamentals of rehabilitative medicine. The aim of the programme is to train students at an advanced level about core physiotherapeutic skills such as therapeutic exercises and application of electro-physical modalities which can cure a range of diseases and disabilities related to back spine neck shoulder and legs. The programme emphasizes on learning to improve movement dysfunction and promote functions of the human body and optimal health. In addition the programme's practical sessions ensure that students get exposure to accurate diagnosis and treatment of disease and disability. After completion of the programme aspirants are enrolled for a six-month internship to prepare them for cases & conditions and enhance their learning.

Program Highlights

1. Students will undergo Practical training in prevention, diagnosis, treatment, therapy.
2. Students will undergo training in Physical recreation, movement, leisure, activation.
3. As vital members of the health care team, BPT professionals play a critical role in giving the training to the ill or injured patients as well as to the patients having joint problems.

Job Areas:

- Defence Medical Establishments
- Fitness Centers, Educational Institutions
- Govt and private Hospitals, Health Institutions (Both Govt & Private setup)
- Physiotherapy Equipment Manufacturers
- Assistant Physiotherapist
- Private Physiotherapist
- Consultant physiotherapy
- Sports Physio Rehabilitator
- Orthopedic Departments
- Therapy Manager
- NGO

PROGRAM NAME

B.M.R.I.T.

(Bachelor in Medical Radio-Diagnosis and Imaging Technologist)

Duration : 3½ Year

For Nepali students, course duration is 4 years i.e. (3 year course + 1 year internship)

Eligibility :

10+2 Pass with Physics, Chemistry, Biology/ Maths and English from any recognised board with at least 45% marks in aggregate.

Age : 17 Year Minimum

About the Course

BMRIT introduces students to the basic bifurcation of the science of Radiology such as Diagnostic Radiology and Interventional Radiology. Diagnostic Radiology concerns itself with the use of X-Ray imaging and allied techniques for diagnoses of diseases and effects of the injury on the body. Interventional Radiology deals with the use of invasive procedures for diagnoses and treatment with the employment of imaging technology (X-ray, ultrasound, CT and MRI). Students can pursue PhD or MPhil degrees to specialize in a number of allied fields like Diagnostic Radiology, Radiation Oncology, Vascular and Interventional Radiology Pediatric Radiology, Nuclear Radiology, Pain Medicine and Neuroradiology.

Program Highlights

1. Trains the students in the area of radiographic imaging of the human body
2. Teaches the students in the different methods of radiographic imaging such as CT scans, MRI, etc .
3. There are several specialisations under radiology that one can pursue after graduating from a B.Sc degree in India.
4. **Ample Opportunities under following profiles**
 1. Radiology Technologist
 2. MRI Technologist
 3. CT scan Technologist
 4. Ultrasound Technician
 5. Angiography technologist
 6. Radiotherapy Technologist
 7. Dexa scan Technologist
 8. Biomedical Engineering

PROGRAM NAME

B.H.A

(Bachelor in Hospital Administration)

Duration : 3 Year

Eligibility :

The eligibility criteria for BHA is 45% minimum aggregate in 10+2 from a recognized college or board (ICSE/CBSE/State Boards).

The course includes Information Technology in Hospitals, Healthcare Economics, Biostatistics, Human Biology, and Medical Terminology, Legal and Ethical Issues in Hospitals. Students can also opt for MBA Course after completing a BHA degree as it will provide a wide range of MBA jobs

Program Highlights

- Nursing Homes
- International and National Healthcare Organizations
- Healthcare Portal
- Mental Health Facilities
- Hospital Consulting Firms
- Pharmaceuticals and Hospital Supply Firms
- Health Insurance Companies
- Medical Software Companies
- Public Health Department
- Rehabilitation Centre

Candidates may apply for any job profile listed below.

- Hospital Administrator
- Floor Manager - Hospital
- Centre Manager
- Teacher or Instructor - College and Universities
- Sales Manager - Hospital Management
- Associate Professor - Hospital Management Healthcare
- Administrative Officer
- Facility Manager - Healthcare/Hospital

PROGRAM NAME

B.Sc Computer Sciences

Duration : 3 Year

Eligibility :

The basic BSc Computer Science eligibility is a minimum aggregate of 50% in Class 12 with PCM as compulsory subjects.

About the Course

BSc Computer Science, abbreviated as BSc CS, is a 3-year undergraduate program that deals with the subjects and topics related to computer science, computer application, and its services. The main aim of this program is to create quality professionals and research fellows who can work in every sector of the world by implementing the technology of computer systems and software.

Program Highlights

- Data scientist. ...
- Application analyst. ...
- Information systems manager. ...
- Web designer. ...
- Technical support representative. ...
- Database administrator. ...
- Software engineer. ...
- Online tutoring.

PROGRAM NAME

B.Sc Agriculture

Duration : 4 Year

Eligibility :

Sr. Secondary (10+2) with minimum 50% marks in PCM/PCB.

About the Course

B.Sc. (Hons.) Agriculture is a 4 years professional bachelor degree programme. The curriculum includes theory and practicals over eight semesters and visits and hands-on experience in the laboratories polyhouses experimental plots and fields within and outside the university in peri-urban rural and industrial settings. It includes topics related to agricultural and allied sciences use of modern scientific instruments machinery and techniques in plant and animal based farming systems land surveying soil science water resource management animal and poultry management basics of biotechnology etc. The programme is to get the students acquainted with various facets of agriculture and its related specializations in the well equipped laboratories as well as in real environment in related industry and farming. The main aim of this programme is to use the above mentioned concepts to train students understand and improve agriculture productivity manage processes & products and pave way for future developments through fundamental and mission oriented applied research with a thrust on evolution of bio-safe and eco-friendly high value agricultural production systems.

Program Highlights

- Assistant Manager (Tea and Rubber Plantation)
- Assistant Manager (Cocoa, Teak, Indigo, Tobacco, Jute and pepper plantation)
- Land Geomatics Surveyor
- Soil Forestry Officer
- Soil Quality Officer
- Plant Breeder/Grafting expert
- Seed/Nursery Manager
- Budding/Tissue culture expert
- Assistant Manager (Horticulture)

PROGRAM NAME

B.Sc IT

Duration : 3 Year

Eligibility :

10+2 or equivalent examinations from a recognized board with Maths

About the Course

Like all other undergraduate programmes related to Information Technology, B.Sc (Bachelor of Science) in IT is basically about storing, processing, securing, and managing information. This degree is primarily focused on subjects such as software, databases, and networking. Program Highlights

Distinctive academic curriculum,

Qualified and competent faculty members

Wide range of Clinical exposure at affiliated Hospitals

Areas of employment where Diploma in Dialysis Technician/Technology graduates can pursue a career:

- Hospitals
- Training Centres
- Multispecialty Hospitals
- Dialysis Clinics
- Laboratories

Job Profile

- Dialysis Technician
- Equipment Operator
- Skill Trainer
- Lab Assistant
- Medical Assistant
- Unit Supervisor

SCHOLARSHIP FACILITY

STUDENT PLACEMENTS SINCE 2002

A BETTER PLACE TO STUDY

PROGRAM NAME

M.Sc. Nursing
(Master of Science in Nursing)

Duration : 2 Year

Eligibility :

B.Sc Nursing/Post B.Sc Nursing with a minimum of 55% marks and atleast 1 year experience and Registration with any of the state Council.

Age : No Bar

About the Course

M.Sc. Nursing is a Postgraduate Course which open the doors for the Graduate nurses to pursue their higher education in Nursing in various specialties that M.Sc Nursing offers. This Course provides opportunity to Nursing Graduates to opt the specialty of their choice among Psychiatric Nursing, Medical Surgical Nursing, Community Health Nursing, Child Health Nursing and Obstetrics and Gynecology Nursing. After completion of the course they will be called as Nursing Specialties of their Subject. M.Sc Nursing brings with it the flood of opportunities in both Service and Education.

Program Highlights

Scope: .

1. Higher Pay
2. Better Working Hours
3. Better Career Opportunities in
 - a. Nursing Colleges
 - b. Hospitals
 - c. Military Services
 - d. Abroad
 - e. Various Govt Health Projects/Programmes
4. Opportunity to Peruse PhD

PROGRAM NAME

B.Sc. Nursing
(Bachelor of Science in Nursing)

Duration : 4 Year

Eligibility :

10+2 passed with a minimum of 45% in Physics, Chemistry, Biology and English each as compulsory subjects.

Age : 17 - 35 Year

About the Course

The B.Sc. Nursing degree course has been designed to train and produce nurses with the ability to critically think and respond to the dynamic need of health care industry.
